March Course & Grounds Report

Frozen Greens, Spring Thaw and Playing on Greens in March

Pore Spacing. Putting green soils will freeze deeper than other soils because of the cultural practices we use to maintain healthy turf during stressful summer conditions. Aeration and sand topdressing create larger spaces between soil particles. Spaces between soil particles fall into two groups: macro-pores and micro-pores. A good soil has equal amounts of both.

The larger macro-pores are the spaces between soil particles that allow water to drain and air to remain. Macro-pore spaces allow water, nutrients and oxygen to penetrate the soil profile and enter the root zone. The smaller micro-pore spaces hold water and nutrients for the roots to use over a period of time. Soils that are aerated and topdressed with sand will have more macro-pores than non-aerated soils and thus allow more cold air to penetrate deeper into the soil and freeze more soil particles than would be frozen in more compacted soils. Macro-pores or larger pore spaces are extremely important to the grass plant during the stresses that occur during the golf season. Macro-pores allow water, nutrients, and oxygen to get deep into the root system of a soil which then supports the leaves of the plant which is the putting green surface.

Two problems occur when playing on greens that are not completely thawed. They both begin when air temperatures rise and the greens slowly start to thaw from the top of the playing surface eventually down into the soil profile. The first problem is from foot traffic compaction and how it decreases the size of pore spaces between each soil particle. Until the entire soil profile is thawed, a frozen layer will remain and the water from above the frozen layer has no place to drain. This trapped water in the upper layer then acts as a lubricant around each soil particle. As force from foot traffic is applied to these super-saturated soil particles they become unable to stack on top of one another and get squished together which decreases the size of their pore spaces. As pore spaces shrink they are less able to hold air and more likely to hold water which does not allow necessary oxygen to travel to the root system.

Root Shearing. The second concern when playing on partially thawed greens occurs when force is applied to the upper portion of the grass plant which has been thawed and shifts with force from foot traffic over the frozen root system. The frozen roots which cannot move with the force are then sheared off the plant. Since the leaves are not supported by water and nutrients from the roots they then die.

SEVEN OAKS—OAK LEAVES

SEVEN OAKS COUNTRY CLUB
CHRIS JUBA DIRECTOR OF OPERATIONS & MEMBERSHIP

Dear Membership,

Another season is upon us and am looking forward to a wonderful 2020 season. We open the Grille Room on Friday March 6th and will be open every Friday, Saturday and Sunday in March. I look forward to presenting our members with the new Grille Room menu as well as our wine menu which features many new selections and are presented in brand new covers which coincide with the ambience of the Grille Room. I highly recommend reservations especially on Friday and Saturday nights!

Before we know it, we will be enjoying the patio and we have a full schedule of entertainment every single Friday starting Friday May 22nd and running through Labor Day weekend! We start the season off that Friday with "The Voices" which are an outstanding duo out of Pittsburgh. I am looking forward to good weather and music every Friday—we had a great turnout each week last year. Plan ahead with your favorite entertainment and make your reservations as seating is limited on the patio! In addition to the Patio entertainment we have all our D.J.'s booked for the pool this season and for the kid's events during the fall and winter months. I would like to thank Joe Morris and Adam DeFlorio for being our D.J.'s this year. Both are Seven Oaks members and appreciate them taking care of us!

We have a full pool schedule, Barley & Hops schedule, Vintner Club schedule and Long Ash Club schedule. We will be working with some new breweries and wineries this season and look forward to the new knowledge and tastes they will be providing us! When it comes to renovations, we will have a brand-new Golf Shop this season as it will be a total transformation from what it was. It will be equipped with brand new counter tops, light fixtures, ceiling, cabinets, displays and a humidior. The demolition was done in January and February and plan to have it completed at the end of March!

We are off to a great start this year with banquets and look forward to a large flow of new members joining early this spring.

As many of you know we will be implementing an initiation fee starting May 1st and predict many new members will join before that is implemented. If you have any friends or family interested in membership, please have them contact Molly Verone for information on our current membership offer. I am excited to announce that Molly is now on board with us full time as our Administrative Assistant as well as taking on a huge role in selling membership. I look forward to a bright future with her on board in this new role!

I look forward to seeing everyone at the club!
