## March Course & Grounds Report

### Frozen Greens, Spring Thaw and Playing on Greens in March

**Pore Spacing.** Putting green soils will freeze deeper than other soils because of the cultural practices we use to maintain healthy turf during stressful summer conditions. Aeration and sand topdressing create larger spaces between soil particles. Spaces between soil particles fall into two groups: macro-pores and micro-pores. A good soil has equal amounts of both.

The larger macro-pores are the spaces between soil particles that allow water to drain and air to remain. Macro-pore spaces allow water, nutrients and oxygen to penetrate the soil profile and enter the root zone. The smaller micro-pore spaces hold water and nutrients for the roots to use over a period of time. Soils that are aerated and topdressed with sand will have more macro-pores than non-aerated soils and thus allow more cold air to penetrate deeper into the soil and freeze more soil particles than would be frozen in more compacted soils. Macro-pores or larger pore spaces are extremely important to the grass plant during the stresses that occur during the golf season. Macro-pores allow water, nutrients, and oxygen to get deep into the root system of a soil which then supports the leaves of the plant which is the putting green surface.

Two problems occur when playing on greens that are not completely thawed. They both begin when air temperatures rise and the greens slowly start to thaw from the top of the playing surface eventually down into the soil profile. The first problem is from foot traffic compaction and how it decreases the size of pore spaces between each soil particle. Until the entire soil profile is thawed, a frozen layer will remain and the water from above the frozen layer has no place to drain. This trapped water in the upper layer then acts as a lubricant around each soil particle. As force from foot traffic is applied to these super-saturated soil particles they become unable to stack on top of one another and get squished together which decreases the size of their pore spaces. As pore spaces shrink they are less able to hold air and more likely to hold water which does not allow necessary oxygen to travel to the root system.

**Root Shearing.** The second concern when playing on partially thawed greens occurs when force is applied to the upper portion of the grass plant which has been thawed and shifts with force from foot traffic over the frozen root system. The frozen roots which cannot move with the force are then sheared off the plant. Since the leaves are not supported by water and nutrients from the roots they then die.

# SEVEN OAKS—OAK LEAVES

Dear Seven Oaks Members,

It is great to be back up and open as we have had a busy first 2 months getting ready for the 2025 season. Chef Tom has been wowing us each week with different menu items which led to a very successful February in the Grille Room! Be sure to check your emails for upcoming menu features throughout March as we will then build our Spring Menu from the most popular items. So far, I would say the Pork Chops have been the biggest winner!

As many of you know, Jason, our Head Golf Professional, was fortunate to find a job 8 minutes from his house and as we all know time is something you can never get back. We are all happy for him and wish him the best in having much more family time with the small commute. As Jason left big shoes to fill, we have been actively searching for a Golf Pro and will be conducting interviews at the beginning of March. We will keep everyone posted when a new Pro is decided upon. We have many great candidates and look forward to the interviews. We will also keep everyone posted on the opening of the golf course which will be weather dependent.

The month of December ended with 20 new members, and we are up to an additional 14 new members throughout the first 2 months of the year. Attrition has also been low and with this momentum can easily hit a waiting list this spring which is every Club's goal! I want to thank everyone for all the referrals as many of the new ones have come through already knowing a member here who has given great feedback. If you have any friends or family be sure to have them, give us a call as now is the time to lock in your spot for the season!

Happy March from our culinary team here at Seven Oaks Country Club! It has been my true pleasure meeting some of you at recent events and in our Grill Room. It also has been great working and learning from such a great dedicated staff that spans from the clubhouse to golf, to tennis and grounds. We are currently testing new products and recipes that will enhance your dining experience throughout our Club. We will be featuring local produce and proteins throughout the summer as they come available to us both at the pool and in the

Welcome back everyone! I hope the worst of winter is behind us. We have been busy cleaning and doing winter maintenance and I can't wait for spring to get here. I am happy to say we have a busy year ahead of us. I would also like to extend a warm welcome to our new executive chef Tom DeGori and our new building superintendent John Mortimer.

The first day of spring is just a few weeks away, and we are busy inside the Clubhouse getting ready for a new season at Seven Oaks.

The calendar is full of weddings, showers, golf outings, private events, and club events, so get ready to enjoy Seven Oaks and all the great things going on.

On Saturday, April 12, we will have our Easter Egg Hunt, a petting zoo, pony rides, some good food, and a visit from the Easter Bunny. The festivities will start at 11 AM. When you call to register, we will need the ages of the kids so that we can make the egg hunt for the different age groups.

On Sunday, April 13, we will have Palm Sunday Brunch and on Easter Sunday, April 20, we will have our traditional Easter Brunch. Be sure to call for reservations for these brunches.

Our first Vintner Wine Tasting will be on Thursday, April 17.

2025 is sure to be a very busy year with special events, and Seven Oaks provides the perfect venue for all the important days of your lives, including baptisms, communions, baby showers, bridal showers, weddings, anniversaries, graduations, birthdays ....and the list goes on. I would love to help you plan your next event, so don't hesitate to call me and I can work with Chef Tom and our great culinary team to make your day even more special!

In the meantime, enjoy the longer daylight hours as spring moves in. Looking forward to seeing you very soon!

I hope that everyone had a wonderful and safe winter season! March is here, which means that we are getting ready for another exciting season at the Club. We have a lot of events to look forward to like the Kids Easter Egg Hunt, Palm Sunday Brunch and Easter Brunch.

For March, the Grille Room will be open Thursday-Sunday. If you would like to make any dining or event reservations, please call me at 724-495-3300 or email me at [mkullen@sevenoaksc.com](mailto:mkullen@sevenoaksc.com).

Have you been receiving emails from the Club? If not, please let me know, and I will add you to our email list. We have received many memberships inquiries for this year so far! I am very excited to continue to sell memberships and show people our beautiful Club! If you know anyone who is interested in joining, please let me know or share my contact information. I look forward to seeing everyone one soon!

Welcome our new Seven Oaks members:

clubhouse. We will be finalizing a menu for the grill in the next 30 days and until then you will see a bunch of new features that will potentially go on the new menu.

Christopher and I are also working on some themed buffets for our patio this summer, please stay tuned. Folks, when planning your next event please remember I can meet with you and customize any menu of your preference.

Thanks so much and look forward to meeting everyone in the near future.

*As my Italian culinary influence started when my dad migrated from a small town in southern Italy called Gizzeria back in 1956 from a charming and historic comune located in the province of Catanzaro within the Calabria region of Italy. Nestled at an elevation of 180 meters above sea level, Gizzeria boasts a tranquil setting and picturesque surroundings. The comune is situated a short distance of*

approximately 9 kilometers from the bustling town of Lamezia Terme, making it conveniently located for those seeking both a quiet retreat and access to urban amenities. As my mother has been a heavy influence with her

culinary background as a private chef I continued to be inspired by her amazing ability to cook and create with love. My older brother Anthony started his career and then it became obvious that this is what my career aspirations would be.

My Cooking style is International with a twist and heavily influenced from the Region of Calabria. Next year I hope to take a class for a week in Tuscany to expand my knowledge of the all the regions in Italy. In the up and coming months, I look forward to cooking many dishes that span the globe.
